INSTRUCTIONS

All measurements should be recorded in centimeters. Apply slight tension to hold the tape measure in place.

STEP 1: Locate Landmarks

1. Encircle leg with top edge of tape measure located at the bottom of patella. Mark leg on this edge of tape at the anterior, lateral, posterior and medial aspects, recording the circumference on the line labeled bottom of patella (Ø point).
2. Encircle leg with the bottom edge of the tape measure aligned with the ankle bend. Mark leg on this edge of the tape at the anterior, lateral, posterior and medial aspects, recording the circumference on the line labeled ankle bend.
3. Encircle leg with bottom edge of the tape measure aligned with the top of patella. Mark leg on this edge of the tape at the anterior, lateral, posterior and medial aspects, recording the circumference on the line labeled top of patella.
4. You may choose to end the garment circumferentially at the gluteal crease, or extend the garment proximally on the lateral aspect of the thigh to the greater trochanter. Mark your preferred position for the top of the garment along the medial thigh, at least 4cm distal to the groin. Next, mark your preferred position for the top of the garment along the lateral thigh, anywhere from the level of the gluteal fold to the lateral greater trochanter. Encircle the leg with the proximal edge of the tape measure positioned just below your markings, trace a line around the leg along the top edge of the tape with your body pen, and record the circumference on top of garment line.

STEP 2: Locate Circumference Measurement Positions

1. Starting with "0" of the tape measure at your mark on the lateral aspect of the bottom of patella (Ø point), mark the leg in 5cm increments down to your mark on the lateral aspect of the ankle bend.
2. Repeat step 1, only this time from the top of the patella (Ø point) up to the lateral aspect of the top of garment.

STEP 3: Measure Lengths

Lateral (A1) Lengths:

Measure upper leg from your mark on the lateral aspect of top of patella to your mark on lateral aspect of top of garment. Record length on line A1.

Medial (B1) Lengths

Measure upper leg from your mark on medial aspect of top of patella to your mark on medial aspect of top of garment. Record length on line B1.

Posterior (C1) Lengths

Measure upper leg from your mark on posterior aspect of top of patella to your mark on posterior aspect of top of garment. Record length on line C1.

Anterior (D1) Lengths

Measure upper leg from your mark on anterior aspect of top of patella to your mark on anterior aspect of top of garment. Record length on line D2.

Knee: Encircle leg with tape measure at mid patella and record each circumference on the corresponding line.

Lower: Encircle leg with tape measure at each mark located on the lateral aspect between bottom of patella and ankle bend, and record each circumference on the corresponding line.

STEP 5: Measure Foot
